

# Conversations About Catholics

A Programme for Connecting People  
with the Catholic Faith

Often, when families are new to school  
and to the Parish, there are uncertainties  
and concerns about the new community...

?...will we fit in

?...will I understand what the children are learning in RE

?...will I embarrass my child when I attend the school Mass

?...I am not Catholic and I am not sure what the correct protocol is

?...have things changed because it is a long time since I have been to church

***Conversations about Catholics*** has been designed  
to assist parents with these concerns and therefore  
in the faith formation of their children.

The four week programme acknowledges and values how  
parents nurture their family, and gently brings people together  
by welcoming and connecting families to each other, to the  
wider community and to the Church.
